

# ETAONIS

Data from the Internet for  
improved yield management

# ETAONIS helps companies leverage Internet data

Internal data is now adressed.

The future is in getting the most of it by crossing  
it with data from the Internet

# Yield management : the problem is on the demand side

Demand is hard to guess

Data from the main platforms is far from exhaustive

Tools available don't do the job already

# What you get : Predicted demand

Geospatial  
prediction

Explanatory  
Factors

An awesome  
API

# The Team

**Charles de Ravel d'Esclapon**

Competition Economics Consultant

*X, ENSAE, Dauphine*

**Arthur Renaud**

CSA

*ENSAE, Sciences Po*
